

PRESS RELEASE

BKL marks its anniversary fair with a new stand at bauma 2022.

The crane professionals are celebrating their 15th bauma show as a main exhibitor in the Outdoor Exhibition Area south FS.1203/1.

Munich, 28 July 2022 – For the 15th time in the company's history, the crane professionals of BKL Baukran Logistik GmbH will be showcasing their wide range of crane services at bauma, which takes place in Munich from 24 to 30 October 2022. To mark its trade fair anniversary, the Munich-based, family-owned business, now managed by the second generation, is one of the main exhibitors and will welcome its customers at a new stand.

On an area of over 350 m², FS.1203/1 is located just slightly to the east of the previous stand in the Outdoor Exhibition Area south. In addition to its bespoke turnkey package for tower cranes, mobile cranes and crane service, BKL will present the self-erecting cranes of Luigi Cattaneo S.p.A., Italy. As co-exhibitors, the Cattaneo team will be on hand to advise customers on all aspects of their products.

The two companies have developed a solid partnership over the last 25 years. Since 1994, BKL has been successfully operating the self-erecting cranes made by the crane manufacturer in Magnago near Milan in its crane fleet, with the powerful, robust cranes selling exclusively under the BKL System Cattaneo brand in Germany and Austria since 2012.

Founded in 1969, BKL specialises in crane rental, sales and service. With around 300 staff at six locations, the company is one of Europe's largest manufacturer-independent, full-service providers of crane solutions. From top European manufacturers, BKL's crane fleet offers over 500 tower cranes, with a radius from 22 to 90 metres, plus over 100 all-terrain mobile cranes from 30 up to 700 tonne giants and 15 mobile construction cranes with a radius of up to 65 metres. As of March 2022, and exclusively in Germany and Austria, BKL customers can rely not just on Cattaneo self-erecting cranes but also on the tower cranes of the Spanish manufacturer Sáez.

BKL unveiled a product innovation at bauma 2019.

BKL and Cattaneo introduced the brand new CM 415 at bauma 2019. With a maximum hook height of 31.5 metres and up to 5 tonnes load capacity, the largest crane in the BKL System Cattaneo has proved to be a powerhouse in BKL's rental fleet and at numerous construction sites. There will be more exciting news to come in 2022.

About BKL System Cattaneo

BKL System Cattaneo includes eight self-erecting cranes that are continuously upgraded by BKL and the Italian crane manufacturer Luigi Cattaneo S.p.A. to ensure they meet customers' requirements. The crane specialist has been renting the machines since 1994 and now distributes them exclusively in Germany and Austria under the BKL System Cattaneo brand. The cranes offer jib lengths of 22 to 41 metres and maximum hook heights of 17.3 to 31.5 metres. Moreover, 80 km/h and 25 km/h axle systems are available for the self-erecting cranes.
