## Expansion: BKL continues to grow.

**On 15 March, the crane specialist is launching its seventh site in Germany, thereby extending its crane services in the Center/West region.**

**Munich, 16 February 2023 – As of 15 March, BKL Baukran Logistik GmbH is expanding its presence in Germany with a new location in the Rhine/Main area. With the opening of BKL's Aschaffenburg site, the Munich-based crane specialist is forging ahead with its successful expansion, bringing its wide range of services for mobile cranes and tower cranes to customers in the south and east of the Frankfurt Metropolitan Region. The new subsidiary of the renowned crane rental company is conveniently located on the B26, with easy access to the A3 and B469.**

"The primary goal of our expansion strategy is to maintain close relationships with our customers all over Germany and Europe. The expansion of BKL Center/West is the next logical step, with BKL Aschaffenburg increasing the radius of our crane solutions in the Rhine/Main area", says Jörg Hegestweiler, managing director at BKL.

Founded by Jürgen Volz in 1969, the family-owned company has over 50 years of experience and will soon employ roughly 330 staff at its seven locations along the north-south axis in Germany. With a fleet of over 500 tower cranes, more than 100 mobile cranes, around 20 mobile construction cranes and over 70 trucks, loader cranes and low-loaders, BKL is one of Europe's largest manufacturer-independent, full-service providers of crane solutions, generating sales of 83 million euros in the last financial year. Like the South and North/East regions, where BKL has enhanced its network in the areas around Munich and Hannover significantly in recent years, the new site south of Frankfurt completes the company's presence in the Center/West region.

### **BKL's crane solutions in the heart of Germany.**

With roughly 6,000 square metres, the new branch near Aschaffenburg offers BKL customers the full range of services for their crane projects. The fleet includes mobile cranes from 30 to 700 tonnes, mobile construction cranes from MK 88 to MK 140, loader cranes and trucks, along with self-erecting and top-slewing cranes from 13 to 1050 tonne-metres.

The local team will work closely with their colleagues at BKL Frankfurt to help customers rent cranes without a hitch in Aschaffenburg, Dieburg and Darmstadt, right up to Hanau in the north, Mannheim and Heidelberg in the south and Würzburg to the east. The office opens on 15 March in Aschaffenburger Strasse, 64832 Babenhausen. Starting today, customers and interested crane technicians, mobile crane operators and truck drivers can contact the crane experts at [aschaffenburg@bkl.de](mailto:aschaffenburg@bkl.de) or by calling +49 69 1534784-400.
